

## Shine

Love and understanding flows like blood  
 Being pumped through veins  
 Grows like roots of a tree  
 Sprouts like branches tickling the sky with its leaves  
 New neurological pathways are formed in the brain  
 Like a criss-cross, lattice, grid work, fine filigree  
 Web of shimmering auric light  
 Synapses firing on all cylinders, connectors re-connecting  
 Re-conditioned, more powerful, healthy viral infection  
 Of pure unadulterated, unconditional, Spiritual Love
